

## WHEN THE KING FALLS

*Am D7*  
When the king falls

*Am D7*  
We'll weep the tears that ought to be wept

*Am D7*  
Sleep the sleeps that should have been slept

*Am D7*  
Kick the leaves that would've been swept

When the king falls  
We'll dance the steps we were taught to forget,  
Re-sing the tunes we were taught to neglect,  
Find all the things that should have been kept

*Am F Dm G*  
Blindness will fade, when the king falls

*Am F Dm G*  
The hunger will subside again, when the king falls

*Am F Dm G*  
I will learn to love again, when the king falls

*Am F Dm G*  
We will be alive again, when the king falls

When the king falls  
I'll feel the things that should've been felt,  
Yell the yells that should've been yelled,  
Fix the things that couldn't be helped.

When the king falls  
I'll ask the things that were never asked  
He'll be smaller then - without his mask -  
And all alone like the rest of us.

*Am F Dm G*  
I will see clear again, when the king falls

*Am F Dm G*  
The hunger disappear again, when the king falls

*Am F Dm G*  
We will learn to love again, when the king falls

*Am F Dm G*  
I will be alive again, when the king falls

*Am D7/G x8*

When the king falls  
We'll take the hands that couldn't be held  
Break the bars and rattle the bells  
Re-fill the jars with beautiful smells

When the king falls  
I'll make the calls that should've been made  
Light all the lights and lift all the shades  
I'll be the one who should've been saved

*Am F Dm G*  
I will be here again, when the king falls  
*Am F Dm G*  
The hunger disappear again, when the king falls  
*Am F Dm G*  
I will learn to love again, when the king falls  
*Am F Dm G*  
We will be alive again, when the king falls

*Am D7/G x4*
